

Empowering Educational Institutions with Next-Gen Digital Solutions:

Right Brains Technology is a leading provider of **web technologies and software development solutions**, backed by a team of highly skilled professionals dedicated to delivering high-performance, scalable, and innovative digital services.

We specialize in a wide range of offerings, including **custom website design, specialized software development, strategic and database-driven websites, mobile and web application development, e-commerce solutions, animated promotional banners, e-books, and comprehensive domain and hosting services**. Our commitment to quality, innovation, and client satisfaction positions us as a trusted technology partner for businesses seeking reliable digital transformation.

Our solutions are empowering 126+ colleges and universities to streamline operations, ensure compliance, and drive academic excellence.

Are You Ready for the Next NAAC Cycle?

Preparing for NAAC, AQAR, or SSR shouldn't be a time-consuming, manual burden. We help colleges and universities **gather, analyze, and report** data easily, accurately, and in compliance with regulatory bodies like NAAC, NBA, and others.

Our Solution Helps You:

Data Collection Made Easy

- Student data (admissions, results, placements)
- Faculty data (qualifications, research, publications)
- Departmental and committee reports
- Infrastructure & financials

Automatic Analysis & Report Generation

- SSR & AQAR formats preloaded
- Auto-fill and smart suggestions
- Custom filters for department/criterion-wise reports

One-Click Report Exports

- PDF and Excel format ready for submission
- Graphs and visual dashboards
- Data archives for audits and re-submissions

Manual Process

NAAC SSR/AQAR
Preparation

Tedious &
prone to error

Our Software

NAAC SSR/AQAR
Preparation

Fast, automated
& accurate

Why Choose Us?

Feature	Manual Process	Our Software
NAAC SSR/AQAR Preparation	❌ Tedious & prone to error	✅ Fast, automated & accurate
Departmental Coordination	❌ Time-consuming follow-ups	✅ Centralized & collaborative
Data Security	❌ Risk of loss/errors	✅ Encrypted & backed up
Reusability	❌ Redo work each cycle	✅ Save, reuse, update anytime

We are reputed to provide world-class service in the IT sector. The service provided by us will include the following:

- **Web-based Application System - Setup:** We will provide you with a custom-made online application system suited for your need. We will also deploy it such that it is accessible by the administration a way to control various aspect of it.
- **Support:** We will provide support whenever needed. Since the system is online, it can be easily accessed by our support engineer to fix in case of any problem occurs.
- **Technology:** We use cutting edge technology to develop and implement web-based system. Specification of technology we use :
 - **Server – LINUX.**
 - **Web Server – APACHE.**
 - **Server-Side Scripting: PHP [244 million web sites use today].**
 - **Client-Side Scripting: JAVA SCRIPT.**
 - **Security: ENCRYPTED METHOD.**

🎓 **Trusted by Institutions Like Yours –**

“We completed our NAAC SSR 3x faster and with greater accuracy. The software guided us through every step.”
– Principal, Behala College.

🧩 **Our Comprehensive Product Suite for Educational Institutions:**

📊 A Unified Digital Repository - **DOC VAULT PORTAL**

Doc Vault Portal is an integrated, user-centric platform designed to streamline documentation, records, and workflows across institutional departments—enhancing transparency, compliance, and digital governance.

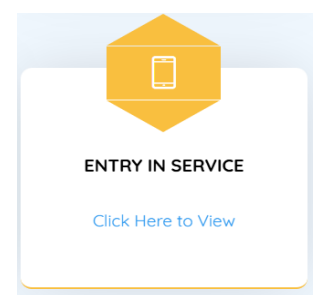

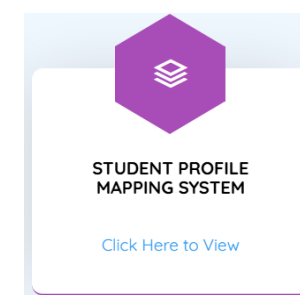

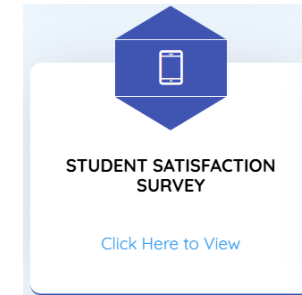

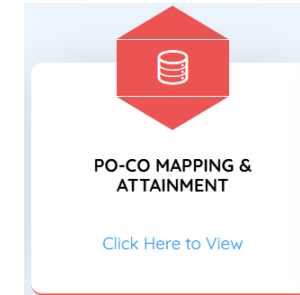

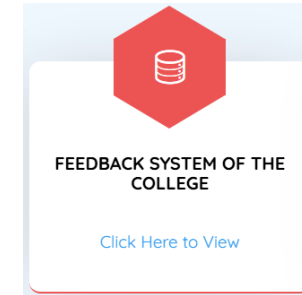

Towards a Smarter, Paperless Future

Academic Excellence & Quality Assurance

- ✓ **Online Feedback Mechanism**
For Students, Teachers, Employers & Alumni

Success Stories from Our Clients:

"Our name was specifically mentioned in NAAC Peer Team Reports — a rare recognition that reflects our widespread adoption and influence, along with valuable feedback that drives us to constantly enhance our offerings."

Qualitative analysis of Criterion 4

The college encompasses a main campus area of 41,832.38 sq.m. and an old hostel campus of 8,258.80 sq.m with the capacity of 326 seats. Key infrastructure includes 51 classrooms, 2 conference halls, 22 ICT classrooms, 18 staffrooms, and one auditorium. The campus is Wi-Fi enabled with appropriate ICT facilities. The college library is equipped with an Integrated Library Management System (ILMS), 'KOHA', and subscribes to e-journals and e-books through N-LIST and DELNET, with RFID technology for digitization.

The college has 22 laboratories for various science departments, including specialized labs for chemistry, physics, botany and zoology that need to be equipped better. The computer labs houses around 100 computers with software such as C++, JAVA, PYTHON, and MATLAB. Additionally, there are two hostels, a fitness centre, a yoga centre, and facilities for both indoor and outdoor games.

The library, operating Monday to Friday from 10:00 AM to 5:00 PM and Saturday from 10:00 AM to 2:00 PM, is equipped with automated circulation, a reading room, an e-Zone with computers, and an Institutional Digital Repository (IDR) with e-theses and publications. It supports DIVYANGJAN users with Braille books and audiobooks through NIEPVD membership. Management includes regular orientations, 'Library Day' celebrations, and webinars to promote reading habits.

Special collections cover topics like Swami Vivekananda, Rabindranath Tagore, Mahatma Gandhi, and women's studies. The library also offers internships for BLISc students and maintains a secure environment with CCTV, LAN, and Wi-Fi connectivity.

The college updates its IT facilities to support teaching and learning, utilizing Enterprise Resource Planning (ERP) software for administrative tasks. The campus is equipped with around 100 computers, high-speed internet (250MBPS), biometric attendance, and around 100 CCTV cameras. The Learning Management System (LMS) ensures the online circulation of academic materials. Departments like Mathematics, Physics, and Computer Science use specialized software for teaching and research. Financial transactions are managed digitally through IFMS and PFMS systems. The college playground measuring 78 m X 55m for outdoor games.

The college uses Quantum-GIS, Erdas Imagine, Arc GIS, and other specialized software in various departments. The website, maintained by [Right Brains Technology](#), features portals for LMS, MCQs, feedback, teacher appraisal, student profile mapping, and more.

Trusted by 126+ colleges & universities
to simplify processes,
maintain regulatory standards,
and elevate academic performance.
